Dear Dave:

Thanks again for agreeing to serve as moderator for the New Intelligence Initiatives session at the 1984 AFCEA Intelligence Symposium. I know the session will be interesting, and even more so with your participation. Both Hal Byers (Sepry) and I are delighted at your being able to be our moderator.

The attached is an information packet I have put together for you with what I have at hand presently. It includes:

- a. lists of all known papers for all the sessions
- b. copies of the draft papers for the New Intelligence Initiatives session (except for the "Target Identification By Radar" which is SECRET)
- c. the latest promotional flyer on the AFCEA Intelligence Symposium
- d. copy of the tentative New Intelligence Initiatives session
- e. a copy of the IEEE EASCON 84 program (for general interest in case you hadn't seen it yet).

If you have not already done so, I'll need a short biography of you and your official title which can be put into the program.

As I mentioned, please remember to schedule the evening of September 17th for a gathering of the session presentors, coordinators and yourself over dinner. These presentors are expected to be (subject to change):

Robert P. O'Rourke	-	Eaton/AIL
David J. DeMascio	-	GE Space Systems
Charles F. Hall	-	Harris
Kenneth Anderson	-	BB&N
Charles Zumba and Richard Kruger	-	SAI
Charles Kendal	-	Mark Resources
